Baseball Tournament Will Feature July 1st Celebration

Four Wheatbelt Teams Will Compete for \$150.00 in Prizes

The Elks Annual Dominion Day Celebration will again be held here on July 1st and will feature a baseball tournament with Wheatbelt League teams from Champion, Barons, Carmangay and Vulcan.

Full arrangements have now been completed by the Vulcan Lodge, B.P.O. Elks and a full day of sports and fun for everyone is assured.

In addition to the baseball, there will be a men's softball tournament with three teams entered and a ladies' softball tournament, also with three teams. The first softball game starts at 12 noon and the baseball gets underway at 1 o'clock.

A complete program of children's sports has been lined up, with cash prizes for the winners. Foot races, hop-step and jump and high and broad jump competitions will be held for the age groups of 6 years and under, 8 and under, 10 and under, 12 and under and 14 and under. Boys and girls bicycle races will earn good cash prizes for the winners.

Following up the full day of sports, a dance will be held in the I.O.O.F. hall in the evening, with music by Hunter's Ramblers.

Net proceeds for the day will go to Elks Memorial Park fund.

Ladies Auxiliary Hears Reports

The regular meeting of the Ladies Auxiliary to the Canadian Legion was held in the Legion hall Wednesday evening last, with a poor attendance of members. Business dealt with was light, but it was decided to send all future food parcels through C.A.R.E. as advised at the recent convention at Saskatoon, thus enabling the Legion to receive the recognition it should for this effort. Cash donations were also voted to the Colonel Belcher hospital and Alberta Sanatorium for comforts for the veterans in these institutions.

Mrs. J. Hunter, who accompanied her husband on his recent trip to Vermilion, as representative of the Vulcan branch of the Legion, gave a most interesting report of their visit and thanked the Auxiliary for having sent her.

Mrs. A. Sales, one of the two fraternal delegates from this branch to the Dominion conference held at Saskatoon in May, gave a comprehensive report of the proceedings and expressed her appreciation for having been chosen to represent the Auxiliary.

It was decided to recess for the months of July and August, with the next meeting to be held on Wednesday, September 15.

Town Council's June Meeting

At the regular June meeting of the town council a heavy agenda of business was dealt with.

Council approved a building permit to A. G. Spaeth to erect a \$3000 residence in the hospital road zone. A permit was also issued to F. Gorbous for a tile and stucco addition to his furniture store.

The Fire Chief was empowered to increase the number of the volunteer fire brigade to 20 members. The town donated \$100 towards the cost of the power mower purchased by the golf club for community purposes.

Authorization was given for the spraying of the nuisance grounds and adjacent road with D.D.T. to curb flies.

The renewal of the golf club's lease of the grounds used as a golf course was discussed and tabled until further information can be obtained regarding the lease.

It was decided to advertise for tenders for a weekly pickup of garbage and ashes in the town. A permit for repairing the McLaggan & Manson building was not granted, as such action is not permissible under Building By-law No. 43.

Council instructed that C. Duke of Calgary is to be advised that the building on Lot 1, Block 27 must be brought up to the building regulations standard of \$4000 for that zone, or must otherwise be removed within thirty days.

Other routine business was dealt with and bills and accounts for the month of May passed for payment.

"Flying Breakfast"

The Champion branch of the Calgary Flying Club sponsored a "Flying Breakfast" at the Champion airport Sunday morning, when the owners of 23 private aircraft gathered at the club house for breakfast.

Planes came in from Queens-town, Cluny, Penhold, Calgary and other Alberta points, as well as one from Saskatchewan. Breakfast was served to a total of 73 persons.

Fund To Aid Flood Victims

Although the disastrous B.C. floods are now subsiding, they have left in their wake much destruction and hardship.

The people of Alberta will welcome an opportunity to contribute to the relief of flood victims in the neighboring province, and to this end, an appeal for funds is being conducted in many Alberta communities.

The B.C. flood relief appeal is being sponsored in Vulcan and district by the Vulcan District Board of Trade and donations to this fund may be made to the Vulcan Branch of the Canadian Bank of Commerce or directly to the Board of Trade through D. D. McQueen, treasurer or M. R. Morrison, president.

All monies received will be administered by the B.C. Flood Emergency Fund and will be expended to relieve the suffering and distress which is an aftermath of the floods. Donations to the fund are deductible for income tax purposes.

Red Cross To Conduct Swim Instructors Course

Water Safety Program Offers Free Course For Swim Instructors

W. Ritson-Bennett, director of the Red Cross Swimming and Water Safety Program, will conduct a swimming instructor's course at the Vulcan Memorial Swimming Pool during the week of July 12-17.

This course is offered free of charge and all those interested in taking advantage of this opportunity are urged to get in touch at once with M. D. McIntyre, chairman of the pool committee or to leave their names with Mr. Neville at the swimming pool.

The swimming and water safety program is a comparatively new branch of Red Cross service but is meeting with outstanding success all over Canada. Awards made

WILL PUBLISH EARLY NEXT WEEK

Next Thursday, July 1, is Dominion Day and a public holiday. The Advocate will be published one day early, on Wednesday, and correspondents and advertisers are asked to have their copy in as early as possible.

School Requisition Appeal Is Heard

The Vulcan town council's appeal against the amount of the Vulcan School District's 1948 requisition was the subject of a hearing conducted at the town office last week by C. G. McGregor of the Department of Municipal Affairs, Edmonton.

A recent amendment to the Act allows a town to appeal against its school requisition if such requisition shows an increase of 20% or more over that of the previous year. The 1948 requisition of the local school district is \$17,606, an increase of about 40% over the 1947 requisition of \$12,502.

The town was represented by Mayor W. D. Allan and Secretary-Treasurer J. L. Findlay, with D. D. McQueen and H. T. Lamont representing the school board.

The result of the hearing will be made known in due course.

ministered by the B.C. Flood Emergency Fund and will be expended to relieve the suffering and distress which is an aftermath of the floods. Donations to the fund are deductible for income tax purposes.

Shower Honors June Bride-elect

Some fifty friends of Miss Claire Fleming, whose marriage to Mr. Bruce Gonyea takes place the end of the month, gathered in the Legion hall Friday evening last, to honor her at a miscellaneous bridal shower. Joint hostesses were Mrs. Bob Middleton and Mrs. Harris Matlock, assisted by Mrs. Roger Middleton and Mrs. Russ Lawrence.

A profusion of lilacs and other early summer blooms were used most effectively on the lace covered tables and to decorate the room. The guest of honor was seated on a pink and white "throne", while the "Progress of Romance" was related by Mrs. Matlock, accompanied by the singing of appropriate songs by the guests. Claire was then presented with a pair of Mr. Gonyea's overalls, and asked to don them, which she good-naturedly did. She was then given a miniature spade and hoe and told to "hoe" according to a pattern, spelling out the name "Bruce", which eventually led her to a gaily decorated wheelbarrow piled high with many lovely gifts.

Sharing honors with the bride-to-be in opening her beautifully wrapped presents were her grandparents, Mr. and Mrs. Fleming, Sr., and her mother.

Thanking her friends for their kind good wishes, Claire extended an invitation to all to visit her in her new home.

A dainty and delicious lunch was served by the hostesses, with Mrs. Fleming and Mrs. Bond sharing honors at the tea and coffee urns.

STILL TRUE
"Men praise the bounty of Nature, but it is much safer to reply on her justice, which as rarely fails to reward our care as to revenge our neglect. We work badly too much ground instead of cultivating well a little." Nicholas Biddle in an address to the Philadelphia Society for Promoting Agriculture in 1809.

STRIKES OUT 28 MEN IN NINE INNINGS

Hugh Frank Radcliffe, 19-year-old pitcher for a Thomaston, Georgia, high school, accomplished the seemingly impossible feat of striking out 28 batters in a nine-inning game. Not satisfied with whiffing 27 men for the usual number of putouts, Radcliffe fanned the extra batter after his catcher dropped a third strike and allowed the batter to reach first safely. It wasn't a no-hitter, though his team won with a score of 10-0. The opposing team's catcher got to first base for his team's only hit. The "baseball wonder" is shown above on the bench.

See Demonstration Of 2,4-D Weed Dusting Machine

Over fifty farmers gathered at the Ross Walker farm Wednesday afternoon of last week to see a demonstration of the T & T 2,4-D duster, arranged by Roy Walker, local agent.

The small machine, attached to tractor, sprayed 2,4-D ester dust over a weed infested field, with its operation being explained by a company representative.

Ester is a certain kind of 2,4-D dust particularly suited to Alberta grain growing conditions and is very fast acting, penetrating a leaf within fifteen minutes after application. The results are noticeable in about a week's time and a very effective weed kill is obtained, according to those who have seen the results.

A significant result of 2,4-D application, whether by dust or sprayer, is a tremendous possible cut in the time and cost of farm operations. Instead of cultivating the stubble land after harvest, as is often done, 2,4-D is applied with beneficial results. The operation itself is quicker and by leaving the stubble unturned soil erosion is prevented, moisture kept in the ground and new weed seeds are not turned up in the fall. Once the 2,4-D has penetrated the leaves of weeds no amount of wind, rain or cold weather will influence the killing of the weeds.

1893 Model Combine Required Crew of 5 Men and 36 Mules

Interesting Picture Harry Adams Combine Of 55 Years Ago

An interesting picture was brought into the Advocate office this week by Harry Adams, one of the oldtimers of the district.

Taken in a grainfield near Adams, Oregon, in 1893, it shows the forerunner of the modern combine in action. Differing greatly, of course, from the modern self-propelled machine, this particular combine had no engine and the motive power was supplied by 36 head-of-mules, driven six abreast. Power for the cutting and separating operations was furnished by a bull-wheel and the wheat was sacked as it came from the separator.

A crew of five men was required to operate the machine which, in its day, was considered to be the ultimate in grain harvesters. The driver sat on an elevated platform at the front of the combine, controlling his 36 mules by two reins attached to the leading mules. Supervision of the separator required the services of two men and another two men were kept busy sewing up the open ends of the sacks of grain as they were filled.

The particular combine in the picture was operated by Mr. Adams and could harvest up to 60 acres of grain a day.

Overnight Storm Brings 2.28 Inches of Rain

Cloudburst Gives 1.98 Inches in First Four Hours

A heavy rain storm struck Vulcan late Tuesday afternoon and for a while the rain came down at a cloudburst rate, later on settling into a steady all-night downpour.

The rain gauge kept by Errett King showed that 2.28 inches of rain had fallen from about 4:30 Tuesday afternoon until early Wednesday morning, when it had stopped raining. A light shower the previous day registered .17 inch of moisture.

With moisture conditions never better, the need now is for sunshine and warmer weather.

As a result of Tuesday's heavy downpour, many basements were again flooded. At Mensinger Motors, employees arriving at work Wednesday morning found the basement completely flooded and a further six inches of water covering the repair shop floor.

Vulcan Wins Two Against Lomond

In a two-game exhibition series played at the local diamond on Sunday, the Vulcan baseball team trounced the Lomond team by 8-2 and 10-0. A good crowd of fans was present.

In the afternoon game, won by Vulcan 8-2, the Lomond battery was Ash to Domelski and the Vulcan battery was Fisher to R. Marshall.

McAllister and Root were the Lomond pitchers in the evening game, with Domelski again behind the plate. Willard did a good job on the Vulcan mound and Spaeth caught for the locals, who won handily by a 10-0 score.

Batting Averages

The following batting averages of the Vulcan baseball team do not include the figures for the Vulcan-Champion game at Carmangay on June 18, which are not available.

	AB	H	%
R. Johnston	17	10	588
Ron Marshall	29	14	483
Bob Marshall	28	13	464
Ben Dann	26	12	461
Don Jantzie	41	17	415
D. Donily	15	6	400
C. Campbell	28	11	393
E. Easton	27	9	333
J. Pruden	24	8	333
R. Gimlet	26	8	308
Dave Jantzie	24	7	292
Glen Fisher	10	1	100
H. Spaeth	16	1	062
B. Willard	11	0	000
Peterson	2	0	000

Lomond To Hold Sports Day

A public meeting, sponsored jointly by the Lomond Sports Committee and the Lomond Board of Trade, was held in the Lomond community hall on June 16.

It was decided that the Board of Trade would sponsor a Sports Day on Dominion Day, July 1, featuring children's sports, softball, baseball and a special picture show, with a dance to be held in the hall at night with music by Fraser's orchestra.

A feature attraction of the day will be a draw for a brand new bicycle which will be given away to some lucky boy or girl. Tickets for this event will be given out on the grounds.

The following committees were named: Finance, J. A. Brown; Baseball, Ed Root; Softball, S. G. Craig; Children's Events, J. A. Mapstone and C. B. Booth; Concessions, S. Schlaht; Grounds, N. H. Erskine.

The herbicide 2,4-D will kill flowers and a good many garden vegetables. If it is used as a dust, even invisible amounts of it will drift quite a distance. Care should be taken to prevent damage to flower and vegetable gardens.

New Record

With the price of beef cattle still heading skywards, many records are being broken and Commodore Allen's recent record price of \$238.95 for a beef cow weighing 1770 lbs. has been beaten by Dan McNiven.

On June 17 Mr. McNiven received the amount of \$243.00 for a commercial beef cow. The cow weighed 1620 lbs. and the price received was \$15.00 per cwt. Burns & Co., who purchased the animal, have advised Mr. McNiven that this has set a new record for the price received for a single commercial beef cow.

Appoint Committee Red Shield Fund

The annual Salvation Army Red Shield appeal will be conducted in Vulcan this year with the assistance of a voluntary committee composed of Chas. Fulton, John Jamison, J. Majakey and J. W. B. Farr, chairman.

Formation of the voluntary committee to assist this worthy cause was the result of a visit paid to Vulcan this week by Major Steele, of the public relations department of the Salvation Army. Major Steele addressed the regular meeting of the Lions Club Monday evening and pointed out that the work of the Salvation Army contributed to the welfare of every community, with its institutions admitting 891 persons last year from 142 Alberta towns.

The response to the local Red Shield appeal last year was disappointing, the public relations officer said, and it was hoped that with the aid of the voluntary committee the response would be better this year. The Vulcan and district appeal starts this week, on June 24.

School News

Shirley Halero who came to Vulcan from Prince Albert in the spring, left on June 20 for Calgary. She was in Grade 4.

Mr. Edwards, a student at the Alberta Bible College in Calgary and a native of Jamaica in the British West Indies, spoke to the school in two separate assemblies on Monday, June 21. Among other remarks he made to the high school group he told them of the growing evidence for emancipation from colonial rule, the low cost of food and the low rate of wages in Jamaica. He said that his difficulty with the decimal system of currency cost him an overcharge of \$2.50 on a 50 cent ride in Miami.

The following rifle awards have been made:

Mervin Brooks—Bronze, silver and gold maple leaves by the Dominion Marksmen in the sporting rifle competition.

Cadet Lieutenants Wolfe and Chell both won the "Blue" badge, the highest award made to cadets by the Dominion Marksmen for recreational shooting. These two cadets also won their Crossed Rifles and Crowns in the annual shooting course, with 60 out of 60 points, making them "Sniper Class" marksmen.

Vernon Majakey, former Vulcan high school student, telephoned from Chicago to Vulcan at noon on Wednesday.

Grade 8 reports were issued on Wednesday, June 23.

The school's new Bell and Howell film sound projector has arrived.

At the school's final term assembly on Tuesday, E. G. McPherson congratulated the winners of the cash awards he makes annually to the students making the greatest advance during the school year. Winner of the \$25 award for high school students was Max Witta, with Brian Todd standing second. The Grade 9 award was won by David Mitchell and Grade 8 by Ralph Buehler.

Some people whistle while they work. Others work.

Giving Some Overdue Credit

We would like to make a fuss. A fuss, that is over the people who work hard-year in and year out for community projects—a fuss about the people who canvass from door to door for various local and national drives, the people who promote things such as rural electrification, junior wheat or calf clubs, the people who head committees and the people who are followers and work hard behind the scenes, the people who run concessions or labor offices, the people who work in civic positions, the people who just plain give their time and effort, drive cars for the ball or hockey clubs, do joe-work for the stampede or the carnival, and lend their dishes, bridge tables, candle sticks, and right arms to whatever public supper, dinner or luncheon that is going forward.

Once in a while they get some credit, half the time they get one or another brand of criticism, and ninety-five percent of what they do is forgotten. At least, it's forgotten until there's a new job to do. "So and so" is good at canvassing, the committee remembers and "So and so" is put down for canvassing. "Mrs. Whosit" is good as secretary so "Mrs. Whosit" finds herself as secretary of four or five organizations.

We wonder why the same people are always stuck with hard jobs why he couldn't do another job well. If he's secretary of one organization and often for the same jobs. If a man is good at one job there's no reason and does a good job of it why saddle him with the same job for every other organization to which he belongs? Why ride a good horse to death? Give new people in town a chance to show what they can do for it and give the ones who've had the chores something different to do or give them a rest, and above all—give them credit for the work they've done.

—Nanton News

Freezing Vegetables

It will soon be time to give attention to filling the pantry or home cold storage with preserved fruits and vegetables. Now that frozen products have been developed to such a high standard more of them are being put up.

Every year there is a growing appreciation of the high quality and fresh flavour of properly prepared frozen fruits and vegetables, says W. R. Phillips, Division of Horticulture, Central Experimental Farm, Ottawa, Ont.

Home canning involves longer cooking, more precise sterilizing and other procedures not required in freezing, says Mr. Phillips, but he warns "as simple as the freezing process is, however, many mistakes are being made which result in failure."

One common error is that the blanching of vegetables is not done properly. The blanching process consists of immersing the vegetables in boiling water or exposing them to steam for a short interval. Under-blanching results in objectionable flavours and over-blanching produces a cooked product which may also be objectionable. Different vegetables require different blanching times, hence the instructions should be carefully studied.

Freshness of raw product is also important. If fruits, and particularly vegetables, are held too long before freezing much of the original fresh flavour is lost. Freezing as soon as possible after harvest results in better tasting food accompanied with higher nutrition value. Thus a definite advantage is gained by obtaining fresh garden produce directly from the grower or, better still, using that which has been grown in your own garden.

When the fruits and vegetables are in freezer they are inclined to lose moisture and become dry or shrivelled. The best means of controlling this is to use packages which will prevent moisture loss. Heavy wax, cellophane, rubber-like compounds and other materials are usually found adequate.

Having taken the precautions mentioned is the only important precaution is to freeze promptly and hold at zero or lower temperatures. It is frequently thought that just holding the product in the frozen state is sufficient. Dividends in the form of high quality and better appearance will result from zero or lower holding temperatures.

The Division of Horticulture, Central Experimental Farm, Ottawa, and the Consumer Section, Marketing Service, Dominion Department of Agriculture, Ottawa, have publications available which will assist in making household freezing a success. Information for constructing household freezers is also available.

The faster a chicken grows, the less feed is required to produce a pound of grain. In a few months after hatching, differences in body plumpness become greater, and a plump body is necessary for the production of prime broilers.

When barley is being produced for malting purposes, it is particularly important that the harvested crop be protected from the weather. In districts where rain is frequent during harvest time, cap-stocking is advisable when the crop is being cured in the stook.

Acting Sec'y-Treas.

New Milk Treatment

An Australian veterinary surgeon claims that a new method of treating milk - known as hoferisation, is preferable to pasteurization. Under this treatment milk is placed under oxygen pressure, kept heated at 131 degrees for an hour, and then cooled under pressure. It is claimed that the milk can be kept from three to six months in the container under pressure without losing its freshness.

A well-insulated poultry house for winter is the coolest house for poultry in summer.

Red Cross Fund Over Quota

Final campaign returns issued by Canadian Red Cross officials on the Society's 1948 national appeal for funds reveal that \$3,637,445 was subscribed by the people of Canada.

"We are happy to report the successful conclusion of the 1948 Campaign with all nine Divisions

well over the top of their provincial quotas," said Dr. Fred W. Routley, National Commissioner. "The national objective of \$3,000,000 was exceeded by \$637,445 or 21%. Altogether, this has been a very satisfactory campaign. Public reaction has been most sympathetic and augers well for the future of Red Cross in Canada."

Reports from Divisions all indicate reception of their provincial campaigns as excellent. Provincial

figures are: Prince Edward Island, \$23,000 or 115% of objective; Nova Scotia, \$150,152 or 125% of objective; New Brunswick, \$119,092 or 158% of objective; Quebec, \$760,000 or 101% of objective; Ontario, \$1,429,068 or 119% of objective; Manitoba, \$312,051 or 173% of objective; Saskatchewan, \$205,222 or 100% of objective; Alberta, \$182,860 or 121% of objective; British Columbia, \$456,000 or 152% of objective. Total \$3,637,445.

Champion and District

CHAMPION WINS CARMANGAY TOURNEY

A baseball tournament was held at Carmangay, Friday, June 18, with a good attendance. Four teams of the Wheat Belt League participated, Barons, Carmangay, Vulcan and Champion. First game was between Barons and Champion, with Champion out-playing their rivals.

Barons	000	000	300	3	9	5
Champion	000	301	37x	14	16	0

Batteries
L. Saffel, Karl and T. Sherwood
A. L. Siler and F. Watts.

Second game saw Vulcan defeat Carmangay by a seven to five score.

Vulcan — Johnson, Gimlet, Dann and H. Spaeth.

Carmangay — W. Chilton and R. L. Long.

The final game Vulcan versus Champion, saw Champion win the tourney.

Vulcan	011	001	010	4	6	3
Champion	300	020	01x	6	9	2

Batteries
Fisher, Dean (8) and H. Spaeth.
A. L. Siler, M. Smith (6) and A. Rupp and F. Watts (8).

Mr. and Mrs. J. Silsbe of Edmonton visited for a few days with the latter's brother and sister-in-law, Mr. and Mrs. A. Orcutt.

Mr. and Mrs. W. R. McRae, Calgary, were weekend guests at the home of Mr. and Mrs. Clyde Coe.

Mr. A. Baker was a Lethbridge visitor on Thursday.

Miss Margaret Carlson and Mr. and Mrs. Norman Carlson and son Everett, were Lethbridge visitors on Thursday. Mrs. N. Carlson and Everett are staying in Lethbridge for a short time while Everett is receiving medical treatment.

Mr. and Mrs. E. Repp of Calgary are on a two weeks holiday at the home of the latter's parents, Mr. and Mrs. H. Lebsack.

Mr. R. Bond is a weekend visitor in Lethbridge at the home of his son and daughter-in-law, Mr. and Mrs. Don Bond.

Mrs. E. Rhodes was a Lethbridge visitor on Saturday.

Miss M. Carey visited at the home of her parents in Barons over the weekend.

Mr. Geo. Orr was among those honored at the Postmaster's Convention held at Calgary last week. Mr. Orr, who has served Champion well as Postmaster for the last 25 years, received a buttonhole emblem in recognition of his long service.

The Women's Association entertained Wednesday afternoon, June 16, at the home of Mrs. L. Latiff, complimentary to a valued member, Mrs. P. Gatenby, who is leaving Champion to reside in Woodhouse. After a social afternoon Mrs. P. Dawson presented the honored guest with a beautiful cup and saucer from the members. Refreshments were served by the ladies.

Continuing the round of entertainment for Mrs. Gatenby, Champion Chapter O.E.S. members assembled at the home of Mrs. P. Dawson, Friday, June 18, when Mrs. Gatenby was presented with a set of costume jewelry by Mrs. Dawson on behalf of the chapter members.

Mr. D. D. Orcutt of Warner visited for a few days with his son and daughter-in-law, Mr. and Mrs. A. Orcutt.

Miss Eva Latiff is visiting in Lethbridge for a few days before leaving for Vancouver.

Mr. and Mrs. Max Groves and family visited in Mossleigh on Father's Day, Sunday June 20, at the home of the latter's parents, Mr. and Mrs. J. Dobbs.

Miss Esther Ferguson of Lethbridge was a weekend visitor at the home of her parents, Mr. and Mrs. Adam Ferguson.

Mr. and Mrs. Arthur Williams of Calgary visited in Champion for a few days, guests of Mrs. Williams' brother-in-law and sister, Mr. and Mrs. A. Orcutt.

Mr. and Mrs. E. Sparks and small son were Lethbridge visitors on Sunday.

Mrs. Orcutt and Mrs. Sletto spent a few days in Calgary, guests of the former's parents, Mr. and Mrs. J. Pharis, owing to illness of Mrs. Pharis.

Misses Elaine Groves and Jean Patterson entertained Friday evening, June 18, at the home of the former, to honor Kenny Gatenby, a school mate, who with his parents, is leaving Champion, at a farewell party. Twenty-four teenagers were present. Raymond Hummel, on behalf of the assembled group, presented Kenny with a gold signet ring. Dainty refreshments were served by the girls.

Mr. and Mrs. H. Lebsack entertained at a birthday party on Friday evening, June 18, complimentary to their son-in-law, Mr. H. (Jack) Marshman.

The O.E.S. members attended the United Church service, Sunday evening, June 20, in a body.

Milt Moffat of Lethbridge was a business visitor in Champion for a few days.

Grades three and four held culmination exercises in their school

room, Friday afternoon, June 18, in aid of the Junior Red Cross, with parents present. An interesting program was enjoyed. Reports on Pioneers, two plays, "Speed" and "The King's Highway", and reports on museum pieces were exceedingly well presented. As the result of an appeal for donations to the Junior Red Cross the sum of \$8 was realized. The youngsters served their parents dainty refreshments to bring a most pleasant afternoon to a close.

Mr. and Mrs. Fred Wise were Lethbridge visitors last week.

Mr. Pat Larkins left on Tuesday evening, June 22, on a three weeks holiday to be spent at his old home at Perth, Ontario. While there he plans to attend the Old Boys' Reunion, which takes place on the 28th of June, an event which takes place every twenty-five years.

Mr. and Mrs. George Smith spent several days in Calgary last week, guests at the home of Mr. and Mrs. W. R. McRae.

Mrs. L. C. Lackey had as her guest over the weekend, her daughter, Mrs. Trudeau, Calgary.

THE SALES TAX

(By R. J. Deachman)

The Sales Tax originated in 1920, it was then 1%, now it is 8%, and it became 8% before the recent war and hasn't changed since. Most of us can remember when the Income Tax was unheard of, now it sits on our back as a sort of nightmare all the year round. Ordinary expenditures of the Dominion Government have gone up from \$413 million in 1939 to \$1,284 million in 1947.

All this has nothing to do with war and demobilization, it rests mainly in a steady increase of social services which some people want and get and to a feeling which exists in the country that when the government pays they get something for nothing. The main problem, however, and the inescapable one is the cost of war. If we can learn to live with Stalin without starting a war all may be well, but what does Stalin think of that?

LALANDE TYPE BATTERY

For those people who live in rural areas where there is no available sources of electricity the most important considerations they have in the selection of their radio's etc., is the batteries. Your electrical dealer has for you the Lalande type of battery which is considered to be the most satisfactory and efficient type of primary battery known today for the special class of service that it is suited. The Lalande cell was developed by Felix Lalande and George Chaperon in 1881. The element consisted of an amalgamated zinc anode, a caustic alkali electrolyte, and a copper depolarizer-cathode. There are many different types of Lalande cells on the market today manufactured by reputable companies. The new "Air Cell" batteries are of the Lalande type and are considered among the finest type of radio batteries. Your community radio and appliance man is able to sell you and service for you all types of batteries including all of the Lalande type or its variations.

Water Erosion Menace

(Experimental Farms News)
Water erosion in the prairie region of Western Canada and the Peace River district is occurring at an accelerated rate. Although this form of land ruin has been going on for many years, the last ten have seen it leap forward until it is now the foremost problem facing some individual farmers, says J. S. Parker, Dominion Experimental Station, Swift Current, Saskatchewan.

This erosion is the result of run-off water flowing down sloping fields and carrying soil particles with it. When the flow of water becomes concentrated, gullies usually result. It is the presence of these gullies which make farmers aware of the existence of the problem, but by the time this happens much good top soil has been washed away. Gullies are primarily noticed because they present a hazard to farming operations and may even divide a farm into two or three distinct fields.

Gullies usually develop where there are long slopes or where a watershed forces water down a central channel. The run-off water may be results of either melted snow or a heavy rainfall. Extremely intense rains create the most damage as the surface soil is quickly sealed and the moisture cannot penetrate downwards so it flows over the surface.

Instances of water erosion have been noted in Southwestern Manitoba where the damage resulting has been absolutely devastating. Sloping fields have been cut up, and in one case so much soil lost from the slopes, that in the flat land below silt has been deposited until two additional fences, one top of the other, have been constructed over the original fence to keep up with the deposit.

In both the Northeastern and Southwestern portions of Saskatchewan several farms have been cut up by gullies and this is continuing. Areas of the foothills in Alberta are much the same. In the Peace River area, on the sloping fields, it is also occurring. One gul-

ly, 10 feet deep, 20 feet wide at its top and one-half mile long is the result of one afternoon's heavy rain. With another field, soil specialists estimate 25 per cent of the top soil to have been washed away.

Control of water erosion is not always easy. Much can be done through correct Land Use and employing proper cropping and tillage practices. Trash cover is an effective weapon to combat water erosion as it not only protects the surface but increases the absorptive capacity of the soil. Where water collects in small streams going down a slope, the best method of control is to remove that water in an orderly fashion so damage does not result. In most cases, this can best be done through construction of grassed waterways.

SEE THAT HENS HAVE PLENTY OF WATER

Improved summer egg production is another means to save costs. Well maintained production in summer under present conditions can be made more profitable than in winter. It is possible to maintain a 50-60 per cent production in summer as well as in winter. When conditions are right, hens can lay all the year round. Many of the principles of the adequate housing apply equally in summer and winter.

Points to be observed in summer production are: (1) the comfort, contentment, and proper feeding of the birds; (2) take out the windows, open the doors and make the poultry house as cool and airy as possible; (3) keep the house and nests clean, free from lice and mites; (4) ample supply of drinking water. Never let the water fountains go dry. Hens suffer intensely from lack of water on a hot day; (5) lots of green feed—the great conditioner; and (6) a good dust bath. The birds do like to dust themselves.

A blotter will absorb surplus ink, but will never take the sting out of an unkind word.

Evergreens for Northern Foundation Plantings

(Experimental Farms News)

By foundation planting is meant the plant materials around the base of the house to create more pleasing appearance when viewed from the street. The purpose of such plants is to lend the foundation of the house to the ground; to soften corners and ugly foundation lines; to frame entrances; break up bare expanses of wall and to draw attention to good points of architecture, says R. W. Oliver, Division of Horticulture, Central Experimental Farm, Ottawa.

Evergreens have more dense foliage and distinct shapes than deciduous shrubs, which means that an evergreen planting is more definite in outline. Consequently it tends to draw attention to the parts of the building near which evergreens are planted, rather than to have the softening effect for which deciduous shrubs are valuable.

The place of evergreens, therefore, is around the base of houses of attractive architectural design, where the planting is not required to hide a high concrete foundation. The definite shapes of the evergreens act as accents to mark corners and to frame doors and windows, to flank steps or to sprawl over the ground beneath windows.

In selecting varieties it should be remembered that it is the nature of native pines, spruce, balsam and cedar to grow into tall trees. For this reason they are unsuitable, as even with clipping they cannot retain a natural grace and be kept within bounds. However, there are many suitable horticultural varieties, sufficiently hardy to grow as far north as the native cedar or arbutus.

In cedars, botanically called Thuja, the columnar form can be used as a vertical line to break up broad wall spaces and frame doorways, or the low globular forms, the smallest of which is Little Gem, to plant on either side of the front doorstep. The Siberian cedar, Thuja Woreana, is a broad, conical form to fill out corners.

For all-round usefulness the Japanese yew is hard to beat. It can be procured in upright growing or spreading form and as it stands clipping very well it can be used to produce a plant of any shape. It can be clipped into vertical columns and round mounds or allowed to sprawl beneath windows. It is even harder than the Thuja and is very tolerant of shade and smoke.

Junipers provide a range of spreading forms—none of the columnar ones is hardy—and a variety of coloured foliage. Sabina is vase-shaped and dark green, a good filler to plant back of the lower growing Junipers such as sabina tamariscifolia, which forms a bright green layered mound and horizontal plumosa which is low, dense and flat topped, turning purple in autumn.

Where softer effects are desired, the thread-leaved cypress, Chamaecyparis filifera, makes a feathery high mound and the Mugho pine and Pfizer's juniper have more open texture than the forms named earlier.

A few evergreens at strategic points will in a few years give enough mass to the planting to blend the house and lot into a harmonious picture.

International Wheat Pact

(H.G.L. Strange)

The International Wheat Pact is still at this writing in the hands of the U.S. Senate Advisory Committee. It is reported that opposition to the Bill is growing, many Senators and Congressmen and others having expressed their opinion that the Pact is not in the interests of U.S.A. farmers. Some fear, too, has been expressed as to what Argentine, Russia and the Balkan States will do, these countries not being part of the agreement. Should the Bill be passed out of the Senate Committee, then it has to receive two thirds of the votes of the Senate itself. If it receives these votes the Bill will pass. Being classed as a foreign Treaty it is not necessary for the Pact to be considered by the Congress of the U.S.A.

An official statement has just been made by the U.S. Department of Agriculture that the Pact would not affect the prices received by American farmers one way or the other, that if the price at Chicago registers more than \$2.00, the maximum of the Pact, it would simply mean that the U.S. Government would subsidize European buyers with the difference between the Chicago price and the \$2.00. This, however, does not hold good for Canadian and Australian farmers who, under the Pact, would receive only the maximum of \$2.00.

High schools of London, Ontario plan to have a baby sitting course included in the curriculum.

FRACTURES

GENERAL SIGNS AND SYMPTOMS OF FRACTURE

1. Pain at or near seat of fracture.
2. Loss of power in the limb.
3. Swelling about the seat of fracture.
4. Deformity of the limb. The limb assumes an unnatural position, and is mis-shapen at the seat of fracture.
5. Irregularity of the bone. If the bone is close to the skin the fracture may be felt.

GENERAL RULES FOR TREATMENT OF FRACTURES

1. Attend to the fracture on the spot. No matter how crowded the thoroughfare, or how short the distance to a more convenient or comfortable place, no attempt must be made to move the patient until the limb has been rendered as immovable as practicable by splints or other means of restraint, unless life is in danger from some other cause.
2. When haemorrhage accompanies a fracture it must be attended to first, and the wound covered by a clean dressing.
3. Steady and support the injured limb so that its further movement on the part of either the patient or the bystanders is prevented.
4. With great care and without using force place the limb in as natural position as possible. The scope of the First-Aider in the treatment of fractures is not necessarily to set the fracture accurately, but to maintain the broken ends in a fixed position so that they shall not cause further injury to the tissues around them.
5. Apply splints, bandages and slings when necessary. The splints must be firm, and long enough to keep the joints immediately above and below the fractured bone at rest. Ample width is very desirable in a splint. A splint may be improvised from a broom or brush handle, piece of wood, paper firmly folded, or, in fact, anything that is firm, long and wide enough. When these are not available, the body itself may be used as a splint, and the upper limbs may be fixed in various ways to it. The lower limbs may be fastened to one another. A general method for dealing with any fracture of the upper limb is carefully to remove the coat if possible; straighten the limb by gentle and steady extension; bend the elbow and lay the limb against the chest with the hand just touching the opposite shoulder. The hand may be fixed in this position by a bandage looped round the wrist and tied around the neck, taking care that there is no constriction at the wrist. The limb is then bound firmly to the chest by a broad bandage or similar method, the coat replaced and buttoned over the fractured limb. This method may also be used for fractures of the shoulder-blade and collar-bone. In the lower limb, if no splinting facilities are available, extend the broken limb and tie the ankles and feet together with a figure-of-8 bandage. If padding is available, pad between the legs. Fasten the knees together with a broad bandage. Bandage above and below the fracture.

Avoid Farm Fires

Because of the comparative isolation of most farms, an outbreak of fire is a terrifying experience to farm folk, and fire prevention is a constant thought in the farmer's mind. At the same time there is consolation in the dictum of the Fire Marshall of Nova Scotia, who has made special studies of farm fires and their origin. He says "All fires start because of something that we do or something we have neglected to do." A study of farm fires indicates that there are at least 13 common causes for fires in rural areas. They are: chimneys; of substandard construction; sparks from dirty chimneys; smoke pipes and stoves installed without regard to radiation of heat; seasonal grass and brush fires; spontaneous ignition of hay through dumping badly cured hay; wornout shingle roofs; lighted lanterns; mis-use of electrical equipment; threshing operations with gasoline power; gasoline vehicles stored in out-buildings; trespass by

thieves and lightning.

With regard to spontaneous ignition of hay, most farmers are very careful in harvesting and storing the hay crop, but one crop of badly cured hay is a continual menace. In lubricants spontaneous ignition does not occur, whether the lubricant is soaked in rags or not, but they burn fast when ignited. Grease, wax, and oils of vegetable origin when smeared or soaked in rags are definitely dangerous. The rags should not be allowed to lie about. If they are not disposed of by burning, they should be washed.

Gasoline has to be used, but care should be taken, because gasoline under certain conditions is highly explosive. All filling operations should be done in daylight, and it is better to keep gasoline in a stropg locked building remote from other buildings. Plenty of ventilation at floor level and above is necessary. A gasoline container should never be over-filled. Gasoline expands and forces

its way outside the container.

For fire prevention on the farm it is recommended to have a roof ladder always at hand. Keep a few water buckets full and ready for use; also it is good to have a few barrels of water ready for instant use. Keep at least one standard 2½ gallon soda acid extinguisher on the premises. In winter, keep the water buckets and fire extinguishers in a warm place.

New Thrills at Calgary Rodeo

General innovations will highlight the afternoon performances of the 1948 Calgary Exhibition and Stampede. Officials of the Stampede feel that they have contracted the outstanding Act in rodeo today in Dick Griffith of Phoenix Arizona. Griffith climaxes his spectacular and colorful trick riding performances with a roman standing jump over an automobile. He has been named world champion trick rider several different years, and his act has been presented in Madison Square Garden, New York, for ten consecutive years.

Color and thrills galore will be added by the importation from Texas of forty Brahma bulls for the bull riding event. Few people among the spectators realize the viciousness of these hump-backed fundies of fury. Only the top riders in the business will tackle them, and these boys show them a very healthy respect. It is essential, when using Brahmas to also have a clown in the arena who, at the conclusion of each ride, does a mock bull-fighting act, distracting the attention of the animal while the rider scrambles to safety. Slim Pickens, an outstanding cowboy clown from Fresno, California, has been contracted for the Stampede, and, between his bull fighting acts, will amuse the crowd with his antics, and those of his trick mule.

The Thearle-Duffield Company of Chicago, who present the spectacular fireworks exhibits in Calgary last year, will return this year with a display which should be among the greatest ever seen in Canada, and will be presented Monday, Wednesday and Saturday evenings.

The Ernie Young Booking Agency of Chicago will provide the evening stage attractions in front of the grandstand and will present a Show brought to Western Canada at a cost greater than ever before paid for grandstand attractions on the Western Fair Circuit. This promises to be a fast moving show in which comedy will predominate.

The outstanding livestock show will also attract a great deal of attention as exhibitors compete this year for the most generous prize list offered in Western Canada. Breeders of purebred cattle, horses, sheep and swine will split a total of more than \$23,500.00

J. E. Brownlee U. G. G. President

J. E. Brownlee, K.C., has been elected president and general manager of the United Grain Growers Ltd., succeeding R. S. Law who resigned because of ill health.

Mr. Brownlee has been associated with the U.G.G. as legal adviser since 1912. In 1942 he became a member of the board of directors, first vice-president and general counsel, and three months ago was made general manager.

The U.G.G. is the oldest farmer co-operative in Western Canada. It was organized in 1906 as the Grain Growers Grain Company, and 1917 amalgamated with the Alberta Farm Co-operative Elevator Company and the present name was adopted.

It operates 644 country elevators in the prairie provinces, about 300 of them in Alberta. In addition it owns a 5,500,000-bushel terminal in Vancouver. It operates a feed manufacturing business in Edmonton. The plant was burned down just a few days ago but operations are continuing.

CHEVROLET Advance-Design Trucks

are the only trucks with all these extra-value features of production leadership...

THE CAB THAT "BREATHES"

Only Advance-Design trucks have the cab that "breathes"! Fresh air—heated in cold weather—is drawn in and used air forced out.*

FLEXI-MOUNTED CAB

Chevrolet's Advance-Design cab is mounted on rubber, cushioned against road shocks, torsion and vibration!

... including these great new HEAVY-DUTY features that only Advance-Design trucks offer:

Entirely new, Chevrolet-developed helical gear 4-SPEED SYNCHROMESH TRANSMISSIONS provide quicker, easier, quieter operation and greater durability in heavy-duty models. "Double clutching" and gear "clashing" are virtually eliminated. Faster shifting promotes greater road safety and the maintenance of speed and momentum on grades!

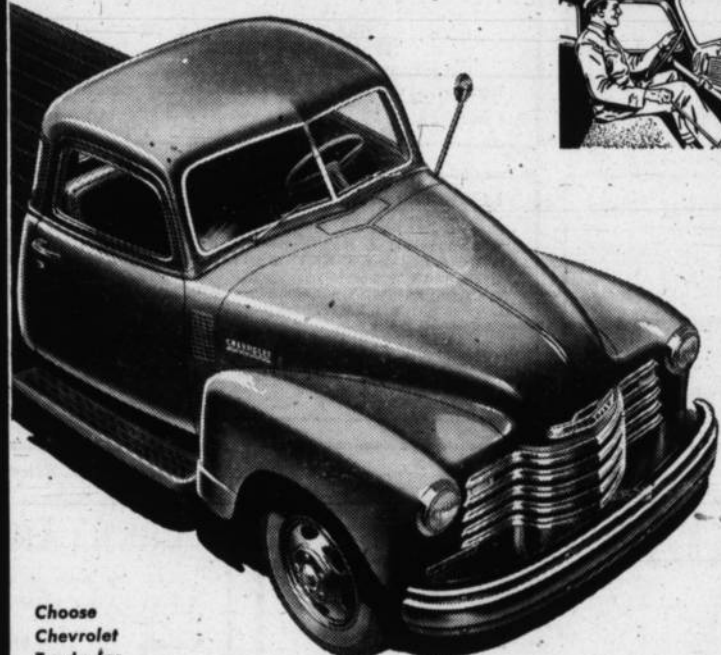

Other* features in this Advance-Design are: All-round cab visibility with rear-corner windows*. Uni-weld all-steel cab construction. Large, durable, fully adjustable seat. Extra-durable frames. Specially designed hydraulic truck brakes. Hydro-vac power brakes (standard on models of 2-tons or more). Heavier, more durable springs. Ball-bearing steering. Standard cab-to-axle-length dimensions permitting interchange of bodies. Full-floating single and two speed rear axles... and MANY other fine features.

*Fresh air heating and ventilating system and rear-corner windows optional at extra cost.

a word about Personal Purchases in the U.S.

• If you are contemplating a trip to the United States, here are two important facts to remember:

• You may not bring back with you any merchandise which is prohibited under the Emergency Exchange Conservation Act. Find out in advance from Canadian Customs officials whether you may bring in any contemplated purchase.

• To conserve all available U.S. dollars for essential purchases, a travel ration of \$150 U.S. per person for the 12 months between Nov. 15, 1947 and Nov. 15, 1948 has been established. Be sure to get the necessary forms and details at your bank, well in advance of your trip.

This caution is given to help avoid possible embarrassment at border points.

"Shop at Home"

Vulcan merchants take great pride in their town and endeavor to bring about all the improvements necessary to give their customers the best in shopping satisfaction, both as to merchandise and shopping service.

District residents are becoming more and more conscious of the advantages of shopping in their community too. Not only is it convenient, but the quality of the merchandise available right here at home is the equal of that obtainable elsewhere. Anything and everything can be bought in Vulcan where practically every phase of business life is represented.

"Shop Locally" may be the slogan of the merchants, but it is much more than that. It is an invitation and a bit of wise counsel for the residents to patronize their merchants and at the same time to take advantage of the excellent services being offered close to home.

District News

EASTWAY

Bill Crossfield of Lyalta spent the weekend at the home of Mr. and Mrs. Howard Tharlie.

A number of carloads of district residents attended the Black Diamond Stampede on June 19.

Miss Maisie Copeland of Claresholm spent the weekend with her aunt, Miss Elma Mitchell, and great-uncle, Alex Mitchell.

Mrs. Gordon Laycraft accompanied the Herronton school children to Calgary last Friday and reported a very enjoyable time.

David Irving of Rosebud was a district visitor over the weekend. Mr. and Mrs. F. M. Wyatt spent Sunday at Arrowwood at the home of Mr. and Mrs. Eyres.

Mr. and Mrs. G. Gooch visited relatives at Queenstown on Sunday.

Mr. and Mrs. Gordon Laycraft spent Father's Day with the latter's father at High River.

Mr. and Mrs. W. Houlton and Mrs. N. Johnston and son attended the L.O.O.F. church service at Milo on Sunday.

Residents of this district held a Father's Day picnic at the Bow River near the Arrowwood bridge on June 20, gathering at five o'clock for a picnic dinner, which was followed by softball games for young and old.

The June meeting of the Eastway Social Club was held at the home of Mrs. S. Cockwill Jr. and a long discussion was held on plans for the annual Father's Day picnic. Mrs. J. Sultor offered her home for the July 15 meeting. Mrs. N. Salter won the raffle and Mrs. P. Laughlin the contest. Mrs. Wm. Cockwill, a new bride, was presented with a gaily decorated basket containing many lovely gifts. She thanked her friends in a few well chosen words and invited them to visit her at her new home. Mrs. S. Cockwill, assisted by Mrs. A. Oldfield, served a dainty lunch.

BERRYWATER

Mrs. William Steer and baby son of Calgary were guests at the home of her former's parents, Mr. and Mrs. Winter Speer, last week.

Mr. Elmer Kumlin was an overnight guest at the Roy McIntyre home Wednesday last.

Sunday guests at the McRoberts home were: Mr. and Mrs. Gus Johnk and family and Mr. and Mrs. Riley and son Robert of Milo.

Congratulations and good wishes are extended to Mr. and Mrs. Orville Speer, newly-weds of the district, from their friends of the community.

KIRKCALDY

A league game was played on the local diamond June 20, when the Kirkcaldy Kittens defeated the Berrywater team by a score of 14 to 13.

The Kirkcaldy juniors were triumphant over the Alston juniors by a score of 25 to 15 at a ballgame played on the school diamond Friday, June 18.

Mr. and Mrs. Bert Maisey had as their guest over the weekend the latter's father and brother, Mr. H. E. Dunbar and Doyle Dunbar of Grande Prairie.

Mr. and Mrs. J. Main are Calgary visitors due to the former's mother being in ill health.

Mr. S. Colwell was a business visitor to Calgary from Sunday until Wednesday.

The Kirkcaldy school and community have invited the Alston school to join them in a picnic at the local school grounds on Tuesday, June 29, at 2 o'clock. Everyone in the district is cordially invited. A basket supper will be served and everyone please bring lunch, and their own dishes.

Mrs. Winnifred Howerton was a weekend Calgary visitor.

Mr. and Mrs. Jim O'Reilly and son Bryon were Sunday guests at the home of Mr. and Mrs. Charlie McDougall of Champion.

ENSGN

Mr. and Mrs. Ed Carr and family motored to Aricaana over the weekend end when they were guests at the Fellows home.

Mr. and Mrs. W. Collison and family were Lomond visitors on Sunday.

Mr. W. Barker of Mair, Sask. arrived here Monday to visit with his son and daughter-in-law, Mr. and Mrs. W. S. Barker.

Mr. and Mrs. Geo. Flebotte, Mrs. B. Brown and Mr. Lawrence Flebotte motored to Calgary this week.

The Ladies of the Community Club entertained their husbands at a Father's Day supper on Monday, June 21. After a delicious supper, the evening was spent by playing bridge and whist.

Friends of Mrs. S. Barker will be pleased to know he is home again and feeling quite well.

Mr. Lawrence Flebotte and son of Springfield, Mass., are visiting here with relatives.

Bill Turley motored to Shelby, Montana, last weekend to meet Mrs. L. Tibbetts and Jim Elston from Spanaway, Washington, who are here for the summer months. Mr. and Mrs. Joseph Archambault and Mr. and Mrs. George Archambault and family are visiting with their father, Mr. Ed Archambault.

Mrs. F. Oaks and Helen have returned home again from Calgary.

RED CROSS

Mr. and Mrs. Cecil Sheepy have returned to Calgary after spending the past week at the home of Mrs. Sheepy's parents, Mr. and Mrs. Lloyd Richardson.

Mrs. Lee Richardson and daughter Sharon spent a few days in Champion last week.

D. L. Doane was a Calgary visitor last Thursday where he was a delegate at the Southern Alberta Dairy Pool meeting.

Melbourne Dunham has returned from Edmonton where he was a delegate at the Young People's Association.

Mr. and Mrs. Ralph Stager and Judy of Barons were weekend visitors at the home of Mr. and Mrs. Plourd.

Miss Plourd had the misfortune of falling on a board which cut her eyelid, requiring stitches. We are glad to report Marie is now doing nicely.

A shower honoring Miss Marjorie Corner, was held at the home of Mrs. Lloyd Richardson. About 40 friends were present. They were entertained with some very amusing contests, after which Kathleen and Marian Knive, dressed as bride and groom, drew in a gaily decorated wagon heaped with gifts to the bride seated under an arch of lilacs. Mrs. Sheepy assisted the bride in opening the gifts. Marjorie very suitably thanked her friends for the many lovely and useful gifts. A delicious lunch concluded the afternoon.

Mr. and Mrs. Alec Hindle and Christie were Sunday guests at the home of Mr. and Mrs. Andy Knive.

Miss Helen Dunham, nurse-in-training at the General Hospital in Calgary, spent a few days at home last week.

The small son of Mr. and Mrs. Ledn Bateman is a patient in the Vulcan hospital, suffering from pneumonia.

Mr. and Mrs. Lloyd Richardson and Mr. and Mrs. Cecil Sheepy were Lethbridge visitors last Saturday.

We are pleased to report that Mr. Glen Bateman who is a patient in the Vulcan Hospital is improving.

Mr. and Mrs. Bob Taylor of Calgary were recent visitors at the home of Mr. and Mrs. Methal.

Mr. and Mrs. Norman Love were Calgary visitors last week.

In lifting weights, do not lift with your back. Lift with your legs by bending your knees and keep your back as straight as possible without straining to do so. That is, keep your back as vertical as possible to the ground when lifting.

Brief Items of Local Interest

Mr. and Mrs. Lacey Hollister left on Sunday for an extended visit in the United States.

Miss Erna Lawrence of Calgary is spending a holiday at her home in the district.

Mr. Richard Gaetz of Calgary was a weekend guest at the home of Mr. and Mrs. J. Majakey.

Congratulations are being extended to Mr. and Mrs. Merle Smith on the birth of a son on June 19.

Mr. and Mrs. T. B. Lebeau and Mr. and Mrs. R. M. Patriquin of Calgary were Sunday visitors to town.

Miss Betty-Lou Davis of Edmonton spent last week with friends here.

Dr. G. M. Carson left the first of the week for an extended visit in eastern Canada. While in the east he will attend a medical convention in Toronto.

Mrs. O. A. Craig left on Tuesday for a two-week vacation at Sylvan Lake. She accompanied her son-in-law and daughter, Mr. and Mrs. Les Christensen of Champlain.

Mrs. Fred Bond and small daughter and son of Hanna are guests this week at the home of the latter's parents, Mr. and Mrs. C. Fleming.

Friends of Parker Moore will be sorry to hear that he is ill and has been admitted to the local hospital. Glen Bateman has also been a hospital patient, suffering from the flu.

Dan Clarke of the Advocate staff was a weekend visitor at Calgary and Banff.

James Dann left from Calgary by plane on Monday to spend two months visiting his father, sister and brother at Warwick Village, Ontario. Mr. Dann's father will be 80 years of age in August.

John Mitchell is spending a holiday at the Mitchell ranch near Medicine Hat.

The Little Bow Social Credit Association will hold a nomination convention in Vulcan Friday afternoon, June 25, at two o'clock in the I.O.O.F. hall. Rev. Peter Dawson, M.L.A. will be the speaker. There will not be an evening meeting.

Mr. and Mrs. Harry Adams have sold their residence to Mr. and Mrs. Jack Scobbe and will move to Calgary on July 2.

A report of the pins and other awards made to school students for the year's work has been held over until next week.

Friends of Mrs. Clarence Martin will regret to hear that she has again been confined to hospital.

Word has been received by friends of Mrs. W. A. Howes of her visit in England. She is enjoying herself, but finds that the cost of living is much higher there than in this country.

Friends of Mr. and Mrs. Stan Fletcher are offering them congratulations on the birth of a daughter, Linda Joanne, on Sunday.

Miss Sadie McCartney of Dawson Creek and Kirsten O'Brien are guests for the week at the home of the former's brother-in-law and sister, Mr. and Mrs. Gordon Clayton. Mr. and Mrs. R. H. McCartney, and Mr. and Mrs. Bert McCartney and son, Robbie of Calgary were also guests at the Clayton home on Sunday.

Well attended anniversary services were held in the United Church last Sunday. The Rev. H. E. D. Ashford of Calgary gave the messages both morning and evening. Banks of flowers lined the church front. Mrs. W. D. Allan on behalf of the Junior Church School presented a special missionary offering. Mrs. M. R. Morrison presented the new Cradle Roll and read the list of babies' names.

Registered Seed Rules

Some farmers may be interested in growing registered seed but are uncertain how to go about it. Here is the answer.

To grow registered seed the crop must be grown from seed which is already registered. This, because all registered seed must trace back through its parents to pure bred stock which has a pedigree registered in the books of the Canadian Seed Growers Association. All reg-

Letters Go Air Mail

Beginning July 1, all letters up to one ounce will be carried by air mail to any part of Canada served by Trans-Canada Air Lines, whether or not they bear air mail stamps. Postmaster General Bertrand announced recently.

This new innovation, known as "all-up" service means that one ounce letters bearing only the red four-cent stamp for surface will get air mail treatment if its delivery to the public can thus be expedited.

The blue seven-cent air mail stamp will continue to be sold through the post office for use on letters weighing more than an ounce. All air mail prepaid at air mail rates will continue to go by air.

For the moment, the service will apply to the Trans-Canada Air Lines network, which operates from the Atlantic to Pacific coasts.

Mail to points served by "feeder" air lines still will require postage at the usual air mail rate. Otherwise it will be carried by TCA as far as possible, and then go by surface route to its final destination.

Mr. Bertrand said the new service will be on "experimental" basis until the department can be maintained at "reasonable" cost and "with the desired degree of efficiency."

However, it was learned that the department has been experimenting with the service for several months, carrying ordinary letters between Montreal and Toronto on air mail planes when space was available.

Mr. Bertrand also disclosed that the department plans to introduce "various improvements and extensions" in rural mail service. He did not say what these would be.

The Home Town Paper

"The Home Town Paper", a motion picture produced by the National Film Board on the modern Canadian Weekly newspaper, has been released to the theatres of Canada in the Board's Canada Carries On series. In this way, it will be shown all across the Dominion to an audience estimated at more than 2,000,000 people. A French-language version, "Courrier de Chez-Nous", will be simultaneously released on the NFB series, "En Avant Canada", French-language counterpart of Canada Carries On.

Following its theatrical run, "The Home Town Paper", will be released in 16mm, suitable for use in hotels, homes, clubs, schools, anywhere a 16mm projector may be set up and operated. Further distribution will include bookings on the NFB rural circuits system, and in film libraries and community film councils all over Canada. Then the film will go abroad to be shown in almost 50 countries by the Dominion's high commissioners, ambassadors, trade commissioners and others. In some cases, versions will be provided with titles and sound track in the languages of the countries the films will go to.

"The Home Town Paper" is a significant screen coverage of a weekly newspaper. It touches lightly the mechanical side of publishing, emphasizes the vital, intimate relationship between a community and its paper. In doing this it becomes a thorough coverage of an average small community's everyday life, its people, its thoughts and activities.

Registered tags which are attached to the bags of seed must be saved as the numbers of them are used to establish the pedigree. Unless a start is made with registered seed the crop cannot be registered because it loses its eligibility for registration if it misses such recognition for a year. Information as to procedure for growing registered crops is contained in Booklet No. 6, published by the Canadian Seed Growers' Association, 251 Bessinger Street, Ottawa, a copy of which is available on request.

Actually the procedure for growing registered crops and producing registered seed resolves itself around the strict precautions which must be taken to prevent contamination of the crop and the seed. For instance, if registered wheat was sown in a field which has produced commercial wheat the year before, the field will be turned down for registration, because volunteer plants might come

Chas. Northcott, Prop.

Phone 131

up from the previous crop. The field, too, must be isolated from adjoining crops by natural barriers or by a cultivated strip. All machinery such as seeders, binders, combines, wagons or trucks, must be carefully cleaned before being used to prevent contamination. Growers of registered seed send an application for crop inspection to the nearest District Supervisor, Plant Products Division, Dominion Department of Agriculture, and an inspector visits the farm before harvesting.

Phone 3 FULTON BROS. Vulcan

While the total number of dairy cows (milking and dry) in Australia has remained fairly constant (about 3,200,000) throughout the war years, the number of cows actually milked has decreased progressively over the past three years, mainly on account of prolonged dry weather.

Red clover as a pasture plant is unsurpassed by any other legume, and it is relished by all kinds of farm animals. However, when cattle and sheep are turned into a field of red clover, there is always a danger of bloating, especially if it is wet with dew and the animals start grazing on empty stomachs.

Farmers:--- See DEL McQUEEN at the Municipal Office for HAIL INSURANCE in the Alberta Hail Insurance Board
